Presentation Guidelines

- **What?**
  - Using clear and rich description, detail your engaged-learning experience
  - Poster Sections: Project Title, Abstract, Community Partners and Objectives

- **So What?**
  - Analysis and interpretation of the *why* of the project, describe learning, check biases
  - Poster Sections: Methods, Results and Impacts

- **Now What?**
  - Translate the learning from the *what* and *why* of your experience to practical recommendations for yourself and audience
  - Poster Sections: Sustainability, Conclusion and Call to Action

Tips for an engaging presentation

- Make eye contact with your audience, engage with them on a personal level
- Speak slowly, enunciate clearly, and show appropriate feeling relating to your topic
- Look pleasant, enthusiastic, confident, and remain calm.
- Know your material thoroughly.
  - Treat this opportunity as practice for an actual professional or academic presentation.
- Present your material in a format similar to a written reflective paper.
- **Do not read** from your notes or your poster board for any extended length of time.

**Practice! Practice! Practice!**

Rehearse your presentation with a peer or Engaged Ambassador (office hours on website).
